POST EVENT REPORT

www.rakenergysummit.com

"RAK Energy Summit 2024 signifies a pivotal moment in our journey towards sustainability and exemplifies our enduring commitment to fostering innovation and excellence in the energy sector.

Ras Al Khaimah is proud to play a leading role in shaping the future of energy and environmental strategies, both within the UAE and globally. Guided by initiatives such as the Energy Efficiency and Renewables Strategy 2040, we are dedicated to making a meaningful contribution to the global dialogue concerning climate action and technological innovation."

TESTIMONIALS

ABDALLAH MASSAAD

GROUP CEO, RAK CERAMICS

Being a part of the RAK Energy Summit was a truly enriching experience. The Government of Ras Al Khaimah, through the initiatives led by RAK Municipality, has long recognized the pivotal role of sustainable energy in driving economic competitiveness, and this summit served as a vital platform to advance these efforts. Engaging with global thought leaders and industry pioneers to discuss smart technologies, AI, and the future of energy transition reaffirmed our commitment to sustainability and innovation at RAK Ceramics. Events like these are instrumental in shaping a greener, more resilient future for generations to come.

AHMED ALI AL-EBRAHIM

CHIEF EXECUTIVE OFFICER, GCC INTERCONNECTION AUTHORITY

RAK Energy Summit 2024 was an outstanding platform for insightful discussions on sustainable energy solutions and innovation. It was a great opportunity to meet industry leaders and experts, fostering meaningful collaborations that will drive the region's energy transition forward.

DEEMA EMADALDIN

HVAC ENERGY SPECIALIST, MEKAR

Honored to represent Royal Gulf LLC at the RAK Energy Summit 2024! It was a great platform to connect with industry leaders and showcase our HVAC solutions. Thanks to the INOEX team for an impactful and well-organized event!

FAISAL RASHID

SENIOR DIRECTOR - DEMAND SIDE MANAGEMENT, DUBAI SUPREME COUNCIL OF ENERGY

The RAK Energy Summit was an excellent platform to explore energy efficiency, sustainability, and circularity while aligning with the UAE's broader energy strategy. It was a privilege to contribute to discussions driving progress toward net zero ambitions.

LUC KOECHLIN

MANAGING DIRECTOR AND CEO, EDF MIDDLE EAST

RAK Energy Summit was a success and contributed to the discussions shaping the energy future of the Northern Emirate and the region. EDF remains committed to pioneering innovative solutions such as low-carbon generation installations, hydro-pumped storage plants, transmission network engineering and energy efficiency services to support the UAE's Net Zero 2050 goals. We look forward to future collaboration with the Ras Al Khaimah Municipality to develop a tailor-made, decarbonised energy mix that meets the region's needs.

TESTIMONIALS

LUCAS BOEHLÉ

ENERGY EFFICIENCY ANALYST, INTERNATIONAL ENERGY AGENCY (IEA), PARIS

It was great to attend the RAK Energy Summit because of the interesting panels and speakers that provided insights from both the private and public sector. Next to that, the organisation was excellent.

NADIA ROUCHDY

HEAD OF CLIMATE, EMIRATES NATURE-WWF

Keen to see stakeholders brought together to discuss interesting insights, new modalities of collaboration, all with the intention to prioritize decarbonization, a key priority for the country. Great first session and looking forward to next year

ENG. NAWAL ALHANEAE

DIRECTOR OF FUTURE ENERGY DEPARTMENT, UAE MINISTRY OF ENERGY AND INFRASTRUCTURE

The RAK Energy Summit was an outstanding platform to exchange ideas and collaborate on advancing the UAE Energy Strategy 2050 and National Hydrogen Strategy toward achieving Net Zero 2050 goals, driving the transition to a sustainable and resilient energy future.

ROISIN WHITE-BARRETT

MANAGING DIRECTOR, CLEAN ENERGY BUSINESS COUNCIL (CEBC)

The RAK Energy Summit provided an excellent platform to discuss innovative solutions for the energy transition, fostering meaningful connections and collaboration across the industry. A well-organized event that brought together key players in the energy sector, driving impactful conversations on sustainability and energy efficiency.

ZAINABIFTIKHAR

MANAGER, TITANEX GENERAL TRADING

Attending the RAK Energy Summit was a truly enriching experience. The event was incredibly well-organized, providing a perfect platform to connect with innovative companies and like-minded professionals from the energy sector. The atmosphere was dynamic and engaging, making it easy to establish valuable connections and exchange ideas. The sessions were insightful, and the networking opportunities were unparalleled. I look forward to participating again in future iterations and commend the organizers for their exemplary execution of this summit.

RAK Energy Summit concludes with strong government commitment to advance climate action

By Priyanka Raina • Posted on December 4, 2024

The Summit shed light on local and international efforts and practices in approaching the energy transition and speakers also shared their perspective on the UAE energy transition and shared visions

HE Suhail Mohamed Al Mazrouei
UAE Minister of Energy and Infrastructure

RAS AL KHAIMAH, 28th November, 2024 (WAM) – RAK Energy Summit concluded today at the Al Hamra International Exhibition & Conference Center in Ras Al Khaimah, after bringing together high-profile decision-makers, speakers, and experts from the UAE, the region, and around the world to engage in two days of insightful dialogue, supporting the global conversation on sustainability, renewable energy and decarbonisation.

The Summit, opened by H.H. Sheikh Saud bin Sagh Al Qasimi, UAE Supreme Council Member and Ruler of Ras Al Khaimah, shed light on local and international efforts and best practices in approaching the energy transition. Esteemed speakers on day two included Eng. Suhail Mohamed Al Mazrouei, UAE Minister of Energy and Infrastructure, who shared the federal government's perspective on the UAE energy transition and Yousef Al Ali, Chief Executive Officer of Etihad Water and Electricity (EtihadWE), who shared his vision for developing the Northern Emirates' grid.

Suhail Al Mazrouei said: "As the world strives to reach net zero by mid-century, developing and adopting the latest sustainability practices and

HE Suhail Mohamed Al Mazrouei
UAE Minister of Energy and Infrastructure

The RAK Energy Summit concluded at Al Hamra International Exhibition & Conference Center in Ras Al Khaimah after bringing together decision-makers, speakers, and experts to engage in the global conversation on sustainability, renewable energy and decarbonisation. The Summit shed light on local and international efforts and practices in approaching the energy transition. Speakers also shared perspectives on the UAE energy transition and shared visions for developing the emirate's grid.

Suhail Mohamed Al Mazrouei, Minister of Energy and Infrastructure said, "As the world strives to reach Net Zero by mid-century, developing and adopting the latest sustainability practices and solutions that support the energy transition has become a top priority on the world's agenda. In its second edition, the RAK Energy Summit is growing to become a world-class platform for integrating sustainability in the energy sector. The Summit is an ideal opportunity for stakeholders to network, form partnerships, and develop sustainable energy solutions that can further cement the UAE's position as a global driver of the energy transition."

He added, "In line with the UAE's ambitious vision for the energy sector, the country needs to transition towards innovative resource efficiency with a focus on

RAK Energy Summit 2024 drives sustainable energy dialogue

BY CONTENT ADMIN

وكالة أنباء الإمارات - وام
EMIRATES NEWS AGENCY-WAM

RAS AL KHAIMAH, 27th November, 2024 (WAM) — Under the patronage and in the presence of HH. Sheikh Saud bin Saqr Al Qasimi, Supreme Council Member and Ruler of Ras Al Khaimah, RAK Energy Summit 2024 kicked off today at the Al Hamra International Exhibition & Conference Centre in Ras Al Khaimah, with high-profile attendees from the UAE and around the world.

"In Ras Al Khaimah, we are making our emirate sustainable in every sense of the word. We recognise that energy is the essential enabler of this transformation, and we aspire to be at the forefront of global developments in the future of a sustainable energy sector."

Munther Mohammed bin Shikar, Director-General of Ras Al Khaimah Municipality, the host of the Summit, stated, "We extend our gratitude to our leadership, sponsors, partners, and guests for making the first day of RAK Energy Summit a success. This summit is an important initiative to drive the energy transition dialogue in the region, with a mission to inspire collaboration among international thought leaders and decision-makers. Together, we aim to position Ras Al Khaimah, the UAE, and the wider region at the forefront of global sustainable energy developments."

The first day featured a keynote address by the UAE Ministry of Energy and Infrastructure on the UAE Energy Strategy, followed by a keynote presentation by the COP28 Presidency on the role of finance to enable a just, equitable and orderly energy transition.

Saif Ghubash, Assistant Under-Secretary for Petroleum, Gas, and Mineral Resources at the Ministry of Energy and Infrastructure, said, "The UAE has always stepped up when it matters most. We were the first in the region to commit to net zero by 2050. This wasn't just a pledge; it's a promise to lead, innovate, and build a better, more sustainable future. To make this vision a reality, we updated the UAE Energy Strategy 2050 last year with bold new goals as we committed to tripling the contribution of renewable energy in our energy mix, investing AED 200 billion

MoEI,MoIAT launch National Industry Sustainability Initiative

Thursday, November 28, 2024 03:14 PM | 1 minute reading

MoEI & MoIAT collaboration to support sustainable industrial sector

JAS AL KHAIMAH, 28th November, 2024 (WAM) - The closing day of the RAK Energy Summit marked a significant milestone with the announcement of the National Industry Sustainability Initiative, a collaborative initiative between Ministry of Energy and Infrastructure (MoEI) and Ministry of Industry and Advanced Technology (MoIAT).

Central to this initiative was the launch of the UAE Industry Registry Platform to support the implementation of the Federal Energy Management Regulation in Industrial Facilities. This landmark ministerial initiative, presented by Eng. Sharif Al Olama, Undersecretary for Energy and Petroleum Affairs, UAE Ministry of Energy and Infrastructure, and Omar Ahmed Suwaidi, Undersecretary, Ministry of Industry and Advanced Technology, underscores the UAE's commitment to sustainability and energy efficiency in the industrial sector.

The programme also included a presentation from Environment Agency Abu Dhabi and RAKGAS, technology showcases from EDF Group and Schneider Electric, along with dynamic panel discussions on fuels and energy carriers of the future and energy-intensive industries. The event
